**Renew A
Driver's License
Without The Wait!**

You can now renew your driver's license without leaving the comfort of your own home or office!

Eligible candidates can renew a license or identification card by mail, Internet or telephone without the hassle of fighting traffic or standing in line.

To be eligible, the Georgia Department of Motor Vehicle Safety (DMVS) must have your fingerprint and signature on file, and there must not be any outstanding violations on your driving record.

The license renewal will be mailed 60 days prior to your birthday to your last known address on file with the DMVS. If you have moved, you must visit a Customer Service Center within 30 days to update your mailing address. The U.S. Postal Service will not forward applications to new addresses.

Changes, such as name and address, can only be made in person at one of our facilities. Security features are not yet in place to allow you to make those changes online or by mail.

Once you receive your License Renewal Application, go to www.dmv.ga.gov and follow the instructions to renew. The application will have an individualized Resident Identification Number (RIN) you must use to renew online, along with the month and day of your last exam date from your current license or ID card.

Drivers will be asked to update voter registration, organ donor, eye donation and selective service information.

You must use a major credit card to renew online. The cost of renewing a driver's license is \$15, \$8 if you choose to be an organ donor and \$10 for an identification card. There is no additional cost for using the automated service.

To renew by mail, fill out the application, enclose a check or money order, and mail the application to the DMVS.

A toll-free telephone number is also provided to renew using a credit card.

Your new license will be mailed with 30 days. It will look exactly like one issued from a Customer Service Center with the same photograph as your previous license.

You may renew your license or identification card online by mail or telephone every other renewal period. The next time your license is up for renewal you must visit a DMVS license facility to have a new photo taken and take the vision test. www.dmv.ga.gov
